The International EPD® System is a programme for voluntary and transparent communication of the life cycle environmental impact of goods and services. With more than 15 years of experience, and a library consisting of certified environmental product declarations from 35 countries, EPD® serves as a credible choice for B2B and B2C communication based on ISO 14025 and other international standards.

The programme operator of the International EPD® System is EPD International AB, registered in Sweden. EPD International is a subsidiary to IVL Swedish Environmental Research Institute.
