THE INTERNATIONAL EPD® SYSTEM

Two new regional hubs in the International EPD® System: EPD India and EPD Brazil

At the EPD International Stakeholder Conference in London the International EPD® System announced the most recent expansion of its global network: the EPD India Hub and the EPD Brazil Hub (to complement EPD Latin American Hub already established in Mexico and Chile).

The International EPD® System is a programme for voluntary and transparent communication of the life cycle environmental impact of goods and services. With more than 15 years of experience, and a library consisting of certified environmental product declarations from 36 countries, EPD® serves as a credible choice for B2B and B2C communication based on ISO 14025 and other international standards.

The programme operator of the International EPD® System is EPD International AB, registered in Sweden. EPD International is a subsidiary to IVL Swedish Environmental Research Institute.
