## NEWSLETTER #2 2018

---

### The International EPD System launches a new database with digital EPD-data

The International EPD® System have launched a new data base with digital, machine-readable EPD-information. Machine-readable EPD-information is stored in a file format that can be used for different applications and will open new ways to make use of the communication of the environmental performance of products.

---

The International EPD® System is a global programme for voluntary and transparent communication of the life cycle environmental impacts of goods and services. Since the publication of the first EPD in 1999, the database at [www.environdec.com](http://www.environdec.com) currently consists of more than 820 certified environmental product declarations from organisations in 40 countries.

The programme operator of the International EPD® System is EPD International AB, registered in Sweden. EPD International is a subsidiary to IVL Swedish Environmental Research Institute.
