NEWSLETTER #3 2018

Recommendation for water scarcity footprint calculations added

The Technical Committee of the International EPD[®] System, have decided on guidance related to how to calculate the Water Scarcity Footprint, a new environmental impact category introduced in the latest General Programme Instructions.

General programme instructions now available in Portuguese

The General Programme Instructions (GPI) version 3 are now available in Portuguese. This is the first time the GPI has been translated from the English version. The translation aims to improve the promotion of EPD in Brazil and Portuguese-speaking countries, but the English version takes precedence in case of any differences.

[See the Portuguese instructions here](#)

Summer schedule of the secretariat

The Secretariat will be closed for about three weeks during the summer period of 2018. For all questions about EPDs, PCRs or EPD registrations in July, please use info@environdec.com as the main contact.

The International EPD® System is a global programme for voluntary and transparent communication of the life cycle environmental impacts of goods and services. Since the publication of the first EPD in 1999, the database at www.environdec.com currently consists of more than 850 certified environmental product declarations from organisations in 40 countries.

The programme operator of the International EPD® System is EPD International AB, registered in Sweden. EPD International is a subsidiary to IVL Swedish Environmental Research Institute.
