NEWSLETTER #3 2020

Stay up to date with the latest news and information from the EPD Secretariat. The International EPD® System is a global programme for voluntary and transparent communication of the life cycle environmental performance of goods and services.

Registration open: EPD International Stakeholder Conference

The annual stakeholder conference is expected to gather EPD stakeholders from industry, academia and other sectors for a chance to learn about the latest developments in the world of Environmental Product Declarations. **The theme of the event is: Access for all - the world needs credible, digital and harmonized environmental performance data.**

We are very much looking forward to e-connect with you on November 10th!

Bombardier the first to publish an Environmental Product Declaration for a business aircraft

Bombardier Aviation and the International EPD® System announced the first publication of an Environmental Product Declaration (EPD) for business aviation, the Global 7500 aircraft. The aircraft EPD

is third party verified and complies with the globally accepted ISO standard, ISO 14025 and related, for type III environmental declarations. It discloses fully transparent environmental information about the product's life cycle. This includes for example CO₂ emissions, noise, water consumption and other key environmental impact indicators.

EPD India manages EPD requests from Bangladesh

It is a pleasure to inform that our regional hub of the International EPD System in India will from October 1, 2020 officially manage EPD requests from clients located in India and Bangladesh. Ms Anindita Baishya and her team are highly motivated to provide their expert support to

organisations and interested stakeholders willing to develop and publish EPDs with The International EPD System and look forward to receiving many EPD publication requests.

Extended validity period for PCR 2012:01 and sub-PCRs following EN 15804:2012+A1:2013

EPD International AB decided to extend the validity period for our PCR 2012:01 Construction products and construction services and all associated sub-PCRs that follow the old version of EN 15804 (EN 15804:2012+A1:2013) until 2021-12-31. This to secure the smooth transition to the new version of EN 15804 (EN 15804:2012+A2:2019).

The International EPD® System is a global programme for voluntary and transparent communication of the life cycle environmental performance of goods and services. Since the publication of the first EPD in 1999, the database of the International EPD® System has been continuously growing to become one of the largest in the world. Today, the database contains EPDs from organizations from all over the world covering a broad range of product categories.

The programme operator of the International EPD® System is EPD International AB, registered in Sweden. EPD International is a subsidiary to IVL Swedish Environmental Research Institute.
